- 12:21:46 From Margit Buen : I have found a lot of patients needs help with systemic infections, like Borreliosis and several other bacteria that is behaving the same way. Both humans and animals. It seems candida, virus and several other things comes with it. It seems to stay latent at times and comes active when more stress shows up in life. It seems what

works the best for my clients is a combination of Arginine, etherical oils, Feldenkrais (probably great with Ttouch as well), traumawork (lopt) and acupuncture with the basis of pulsdagnosis

12:24:47 From Mary Ann Pets & People Energy Medicine : Jean Houston, Ph.D.

“In our time we have come to the stage where the real work of humanity begins. It is the time where we partner Creation in the creation of ourselves, in the restoration of the biosphere, the regenesis of society and in the assuming of a new type of culture; the culture of Kindness.

Herein, we live daily life reconnected and recharged by the Source, so as to become liberated and engaged in the world and in our tasks.”

--Jean Houston

Stevel Nobel is excellent and he has been taking about this time for 20 years:
